The CF Family Day is a medical and educational forum designed for attendance exclusively by parents, family members and CF care team members. In our ongoing efforts to safeguard people with CF from the known risk of person-to-person transmission of resistant organisms, we ask that individuals with CF not attend this event. In addition, CF Family Day discussions are mature in nature and are not appropriate for young children.

The CF Family Day program is made possible by a grant from Eurand through the Boomer Esiason Foundation
