Independent Auditor's Report

**To the Board of Directors
The Boomer Esiason Foundation
New York, NY**

Opinion

We have audited the accompanying financial statements of The Boomer Esiason Foundation (the "Foundation") (a nonprofit organization), which comprise the statements of financial position as of March 31, 2025 and 2024, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Boomer Esiason Foundation as of March 31, 2025 and 2024, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Boomer Esiason Foundation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Boomer Esiason Foundation's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

**To the Board of Directors
The Boomer Esiason Foundation
Page 2**

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Boomer Esiason Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Boomer Esiason Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 1: Summary of significant accounting policies:

The Boomer Esiason Foundation (the “Foundation”) is a charitable organization created on February 1, 1993 under the laws of the State of New York. Since its inception, the primary purpose of the Foundation has been to financially assist and provide charitable funding for scientific and medical research regarding cystic fibrosis. The Foundation also provides enhanced support for patient services in addition to providing increased awareness and education about cystic fibrosis. The Foundation sponsors an annual dinner and golf tournament along with other charitable special events to raise funds for its primary purpose.

Basis of presentation - The Foundation prepares its financial statements on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America. Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation are classified and reported as follows:

Net assets without donor restrictions - Net assets that are not subject to donor-imposed stipulations. Certain funds, while without donor restrictions, have been designated by the Foundation for a particular purpose or program.

Net assets with donor restrictions - Amounts specifically restricted by donors or grantors for various purposes or future time periods. When a restriction expires, donor-restricted net assets are reclassified to without donor restriction net assets and reported in the statement of activities as net assets released from restrictions.

Cash and cash equivalents - For purposes of preparing the statements of financial position and cash flows, the Foundation considers all investments purchased with a maturity of three months or less to be cash equivalents.

Restricted cash - During 2008, the Foundation began receiving donations to establish a permanent endowment fund to provide scholarships. Terms of the endowment require the funds to be segregated from other Foundation funds. The donor-designated endowment is reported as net assets with donor restrictions. The Foundation held \$1,350 and \$2,250 of funds that were not transferred to the restricted account as of March 31, 2025 and 2024, respectively. Subsequent to year end, the Foundation transferred these funds to the restricted account.

Investments - Investments, which consist of equity securities, donated equity securities, bond funds and held to maturity investments, are reported at fair value, which is established at readily determinable current market values. Donated investments are sold as soon after donation as possible.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 1: Summary of significant accounting policies: (continued)

Contributions receivable - Contributions are recorded as revenue in the period committed. All receivables are due within one year; therefore, no discount is required. Contributions receivable are stated net of an allowance for doubtful accounts. The Foundation estimates the allowance based on an analysis of specific donors, taking into consideration the age of the past due amounts and an assessment of the donor's ability to pay. Management believes an allowance for doubtful accounts of \$50,000 was necessary at March 31, 2025 and 2024.

Property and equipment - The Foundation capitalizes all expenditures for property and equipment in excess of \$5,000. Property and equipment are stated at original cost or, if donated, at fair market value at the date of donation. Depreciation is computed using straight-line methods over the estimated useful lives of the related assets. Depreciation expense and amortization expense related to property and equipment for the years ended March 31, 2025 and 2024, was \$26,138 and \$23,264, respectively. Total property and equipment consisted of the following as of March 31:

	2025	2024
Furniture and equipment	\$ 16,212	\$ 16,212
Vehicles	126,402	126,402
Leasehold improvement	60,934	60,934
Accumulated depreciation	(129,441)	(103,303)
 Total property and equipment	 \$ 74,107	 \$ 100,245

Deferred revenue - Payments received prior to fiscal year end, which relate to charitable special events to be held in the subsequent fiscal year, are deferred. This includes payments from fundraising and charitable contributions.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could vary from the estimates that were used. Significant estimates were used when calculating the net realizable value of the contributions receivable. It is at least reasonably possible that the Foundation's estimate will change materially in the near term.

Federal income taxes - The Foundation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 1: Summary of significant accounting policies: (continued)

Accounting for uncertainty in income taxes - The Foundation accounts for the effect of any uncertain tax positions based on a "more likely than not" threshold to the recognition of the tax positions being sustained based on the technical merits of the position under scrutiny by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, the unrecognized tax effect is estimated based on a "cumulative probability assessment" that aggregates the estimated tax liability for uncertain tax positions. Interest and penalties, if any, are accrued as a component of general and administrative expenses when assessed. The Foundation has identified its tax status as a tax-exempt entity under Section 501(c)(3) and that it has no unrelated business income as tax positions; however, the Foundation has determined that such tax positions do not result in an uncertainty requiring recognition. Income tax years ended prior to March 31, 2022 are no longer subject to audit by taxing authorities.

Revenue recognition - In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 requires an organization to recognize revenues to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which an entity is expected to be entitled in exchange for those goods or services. On April 1, 2018, the Foundation adopted ASU 2014-09, using the modified retrospective approach. The Foundation applied the five-step revenue model stipulated by ASC 606 to all of its significant revenue streams in order to determine when revenue is earned and recognized.

All contributions are considered available for the Foundation's general programs unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor are reported as with donor restrictions. Investment income that is limited to specific uses by donor restrictions is reported as increases in net assets without donor restrictions if the restrictions are met in the same reporting period as the income is recognized.

Advertising - The Foundation expenses advertising costs as incurred. Total advertising expense for the years ended March 31, 2025 and 2024, was \$79 and \$382, respectively.

Concentration of credit risk - The Foundation maintains its cash balances at various financial institutions. The accounts at each of these institutions are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to certain limits. At various times throughout the year, cash balances at these institutions exceeded the federally insured limits. The Foundation has not experienced any losses with respect to its cash balances.

For the year ended March 31, 2025, one donor accounts for approximately 10% of the Foundation's total revenue and two donors account for approximately 55% of the Foundation's total contributions receivable. For the year ended March 31, 2024, no donors accounted for more than 10% of the Foundation's total revenue and one donor accounted for approximately 43% of the Foundation's total contributions receivable.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 1: Summary of significant accounting policies: (continued)

Contributions payable - Contributions are recorded as expense in the period committed. These amounts are shown on the statement of financial position as part of accounts payable and accrued expenses.

Joint costs of activities that include a fundraising appeal - The Foundation achieves some of its programmatic goals during special events that include elements of management and general and fundraising. The costs of conducting those events included a total of \$1,274,039 and \$1,142,086 of joint costs that are not directly attributable to either the program, management and general or the fundraising component of the activities for the years ended March 31, 2025 and 2024, respectively. Total joint costs consisted of the following as of March 31:

	2025	2024
Program	\$ 297,067	\$ 291,422
Management and general	146,815	116,469
Fundraising	<u>830,157</u>	<u>734,195</u>
Total joint costs	<u>\$ 1,274,039</u>	<u>\$ 1,142,086</u>

Fair value measurements - The FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2 - inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 1: Summary of significant accounting policies: (continued)

Fair value measurements (continued) -

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

New accounting pronouncements - On April 1, 2023, the Foundation adopted ASU 2016-13 Financial Instruments - Credit Losses (topic 326): Measurement of Credit Losses on Financial Instruments, as amended, which replaces the incurred loss methodology with a current expected credit loss (CECL) methodology. The measurement of expected credit losses under CECL methodology is applicable to financial assets measured at amortized costs, including loan receivables and held-to maturity debt securities. The Foundation adopted ASC 326 using the modified method for all financial assets measured at amortized costs. The Foundation has analyzed its financial assets and deemed that no adjustment is necessary. Therefore, total net assets and changes in net assets are unchanged due to the adoption of this new standard. The Foundation will continue to analyze their financial assets for expected credit loss under this new standard.

Reclassifications - Certain reclassifications have been made to the 2024 presentation to correspond to the current year's format. Total net assets and change in net assets are unchanged due to these reclassifications.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 2: Liquidity and availability:

The following reflects the Foundation's financial assets on March 31, 2025 and 2024, reduced by amounts that are not available for general use because of donor imposed or time restrictions within one year of the statement of financial position date.

	2025	2024
Financial assets:		
Cash and cash equivalents	\$ 350,092	\$ 759,640
Restricted cash	240,563	231,979
Treasury bills	2,246,390	2,158,118
Contributions receivable, net	586,750	750,146
	<hr/> 3,423,795	<hr/> 3,899,883
Less those unavailable for general expenditure within one year, due to:		
Endowment	(224,442)	(223,092)
Amounts designated for future purpose and time restrictions	<hr/> (1,847,342)	<hr/> (1,990,657)
Financial assets required to meet cash needs for general expenditures within one year	<hr/> \$ 1,352,011	<hr/> \$ 1,686,134

Net assets with donor restrictions consist of cash received to be used for specific program expenditures in the coming fiscal year or as part of an endowment the Foundation received. The Boomer Esiason Foundation relies on individual, foundation and corporate donors to provide the resources to support the Foundation's operating activities.

Note 3: Investments:

FASB ASC 820 requires financial assets and liabilities to be valued and disclosed based on the fair value hierarchy. The following table sets forth by level, within the fair value hierarchy.

The Foundation's investments at fair value consisted of the following as of March 31, 2025:

	Total	Level 1	Level 2	Level 3
Treasury bills	\$ 2,885,124	\$ 2,885,124	\$ -	\$ -
TCG Balanced Fund	4,270,252	-	4,270,252	-
Epistemic AI, Inc.	191,248	-	-	191,248
 Total investments at fair value	 <hr/> \$ 7,346,624	 <hr/> \$ 2,885,124	 <hr/> \$ 4,270,252	 <hr/> \$ 191,248

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 3: Investments: (continued)

The Foundation's investments at fair value consisted of the following as of March 31, 2024:

	Total	Level 1	Level 2	Level 3
Treasury bills	\$ 2,535,531	\$ 2,535,531	\$ -	\$ -
TCG Balanced Fund	4,029,655	-	4,029,655	-
Epistemic AI, Inc.	119,784	-	-	119,784
 Total investments at fair value	 \$ 6,684,970	 \$ 2,535,531	 \$ 4,029,655	 \$ 119,784

Treasury bills consisted of \$2,246,390 and \$2,158,118 held for general operations and \$638,733 and \$377,413 held for the board-designated endowment amounts as of March 31, 2025 and 2024, respectively. All treasury bills have a six-month maturity and will mature on a rolling monthly basis. As such, the Foundation considers all treasury bills not held for the board-designated endowment to be liquid and available to fund general operations, if needed.

Donated equity securities are sold as soon after donation as possible. As of March 31, 2025 and 2024, all donated investments had been sold.

Total unrealized loss on Level 3 investments as of March 31, 2025 and 2024, was \$-0- and \$42,716, respectively. Total unrealized gain on Level 3 investments as of March 31, 2025 and 2024, was \$71,466 and \$-0-, respectively.

The Foundation's investment return consisted of the following as of March 31:

	2025	2024
Realized and unrealized gain on investments	\$ 210,141	\$ 265,875
Less: investment fees	-	-
Total gain on investments	210,141	265,875
Interest and dividends	108,492	212,281
 Total investment return	 \$ 318,633	 \$ 478,156

The investments are designated as unrestricted and as such, the investment return is included as increases or decreases in without donor restriction net assets.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 4: SAFE note purchase from Epistemic-AI:

During the year ended March 31, 2023, the Foundation purchased a Simple Agreement for Future Equity (SAFE) note from Epistemic-AI for \$150,000. There was an equity financing event before the termination of this SAFE note during the year ended March 31, 2024. On the initial closing of such equity financing, the SAFE note automatically converted into the number of shares of safe preferred stock equal to the purchase amount divided by the conversion price. This is classified as an investment on the statement of financial position.

Note 5: Net assets with donor restrictions:

The net assets with donor restrictions of the Foundation are available under the following purpose and time restrictions at March 31:

	2025	2024
Endowment	\$ 224,442	\$ 223,092
Time	372,355	161,374
Education and other purposes	<u>1,847,342</u>	<u>1,990,657</u>
 Total net assets with donor restrictions	 <u>\$ 2,444,139</u>	 <u>\$ 2,375,123</u>

Note 6: Related party transactions:

Certain members of the Board and companies owned by these Board members conduct business with the Foundation for accounting and consulting services. As of March 31, 2025 and 2024, the amounts included in accounts payable that were due to various board members or the companies owned by them was \$6,139 and \$13,249, respectively. For the years then ended, the related expenses for services rendered by related parties were \$135,219 and \$152,383, respectively.

During the years ended March 31, 2025 and 2024, certain employees and members of the Board pledged contributions to the Foundation and had various personal expenses paid on their behalf. As of March 31, 2025 and 2024, the amounts included in contributions receivable that were due from various employees and Board members were \$32,000 and \$72,500, respectively.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 7: Defined contribution plan:

The Foundation sponsors a qualified 403(b) pension plan for the benefit of eligible participating employees. Employer contributions to the plan are discretionary and based on a percentage of employee compensation. Participants are vested in employer contributions according to provisions of the plan. Effective May 1, 2014, the plan was amended to require one year of service in order for participants to be eligible for employer contributions. Employer contributions for the years ended March 31, 2025 and 2024, were \$52,188 and \$48,088, respectively.

Note 8: Commitments and leases:

Beginning on April 1, 2022, the Foundation began to account for its office space lease under the guidance within Accounting Standards Update (ASU) 2016-02 Leases (Topic 842). Under Topic 842, a contract is (or contains) a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed. The Foundation has elected to use the retrospective at the beginning of the period of adoption method through a cumulative effect adjustment by which the liability is calculated as the present value of the remaining lease payments at the date of adoption using its discount rate as of the date of adoption. Right of use (ROU) assets represent the right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments.

Operating lease ROU assets and liabilities were recognized at the date of adoption of the standard (April 1, 2022) based on the present value of lease payments over the remaining lease term. The Foundation uses the implicit rate when it is readily determinable. Since the Foundation's office leases did not provide an implicit rate, to determine the present value of lease payments, management uses the Foundation's incremental borrowing rate based on the information available at adoption of the policy. The Foundation has chosen to use the federal funds rate (4.83%) at the time of adopting ASC 842 to calculate the ROU assets and liabilities. Lease expense for lease payments is recognized on a straight-line basis over the lease term. The Foundation's lease terms may include options to extend or terminate the lease when it is reasonably certain to exercise, or not exercise, the option.

The Foundation entered into a 60-month lease for office space in New York City, NY effective September 1, 2009. This lease has been renewed multiple times. Most recently, it was renewed for 24 months effective September 1, 2024. The Foundation also entered into a 24-month lease for office space in Garden City Park, NY effective October 1, 2012. This lease has been renewed multiple times. Most recently, the lease was renewed for 24 months effective October 1, 2024.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 8: Commitments and leases: (continued)

In addition to base rent and additional rent for utilities, the Foundation is also required to reimburse the landlord for its proportionate share of real estate taxes at each of these locations. Maturities of operating lease liabilities are as follows for the years ending March 31:

2026	\$ 195,725
2027	<u>93,482</u>
	289,207
Less: interest	<u>(2,555)</u>
Present value of lease liabilities	<u>\$ 286,652</u>

Additional information on the Foundation's leases are as follows as of March 31:

	2025	2024
Lease costs:		
Operating lease costs	\$ 209,449	\$ 202,401
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$ 192,856	\$ 211,930
Right of use assets obtained in exchange for:		
New operating lease liabilities	\$ 176,260	\$ 265,005
Weighted-average remaining lease term:		
Operating leases	1.46 years	2.14 years
Weighted-average discount rate:		
Operating leases	6.09%	4.83%

Note 9: Board-designated endowment:

The Foundation's funds designated by its Board of Directors to function as an endowment consists of two funds, its Managed Portfolio, and its Venture Philanthropy Portfolio, each established for distinct purposes. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Directors to function as an endowment, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 9: Board-designated endowment: (continued)

The fundamental investment objective of the Managed Portfolio is to generate a net total return sufficient to meet the spending needs of the Foundation and preserve the real (inflation-adjusted) purchasing power of the Managed Portfolio over the long term. Consequently, the absolute investment return objective of the Managed Portfolio measured over rolling 10-year periods, is to achieve an annualized return equal to the Consumer Price Index plus 5%. The relative return objective of the Managed Portfolio measured over market cycles is to generate competitive returns relative to a benchmark based on the Long-Term Strategic Asset Allocation Targets of the Portfolio.

The Foundation will engage an external investment advisor to manage the Managed Portfolio within the prescribed long-term strategic and tactical asset allocation parameters set forth by the Board of Director's Investment Committee. While the investment advisor will have discretionary authority to tactically operate within these guidelines, the Committee will monitor and evaluate the investment advisor on an ongoing basis in the execution of their mandate.

The Managed Portfolio consists of 85% of the endowed assets and as a general guide will be divided into: (a) Long Term Growth Strategies that include investments expected to generate long-term capital appreciation and support the purchasing power of the portfolio over time (e.g., global equities, private equity, venture capital, buyout funds and distressed credit/equity strategies); (b) Hedged/Opportunistic Strategies that include investments expected to participate meaningfully in positive trending markets while providing less downside capture in declining markets (e.g., long/short equity hedge funds, event driven strategies, and high yield fixed income); (c) Diversifying Strategies that include core fixed income strategies that provide the portfolio with current income, daily liquidity, and diversification benefits, and alternative investments that provide the portfolio with an absolute return or strategies with no correlation or a low correlation to the equity markets.

The fundamental objective of the Venture Philanthropy Portfolio is investment in cystic fibrosis related or healthcare adjacent venture philanthropy. While the Foundation, by way of the Managed Portfolio, seeks to achieve its philanthropic mission in perpetuity, the Venture Philanthropy Portfolio portion of the endowed assets will be selected by the Board of Director's Venture Philanthropy Committee with the following principles as a guide: to identify companies, businesses, organizations, institutions, managed funds, or other opportunities with strong potential of both profit making and creating and/or providing positive impact on the cystic fibrosis community while prudently diversifying the endowed funds in an effort to mitigate risk. The Venture Philanthropy Portfolio consists of 15% of the endowed assets measured at the time the funds are added to the endowment. The engagement period is a minimum of three years and an average of five to seven.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 9: Board-designated endowment: (continued)

While the fundamental investment objective is a positive financial return while simultaneously maximizing positive impact on cystic fibrosis by identifying investment opportunities with a focus on management, treatment, cure, or research of the disease or its conditions, it is also understood that the time horizon for these types of investments may be protracted.

The Foundation's endowed funds and the long-term real growth and expected return on its investment assets is intended to generate a net total return sufficient to preserve the real (inflation-adjusted) purchasing power of the endowed funds over the long term and subsidize the Foundation's current and long-term programming objectives in perpetuity.

Composition of and changes in the board-designated endowment for the years ended March 31, 2025 and 2024, were as follows:

	2025	2024
Endowment net assets, beginning of year	\$ 4,407,068	\$ 2,349,665
Contributions	1,528,701	2,596,363
Treasury bill maturities	(1,176,420)	(866,000)
Investment gain	149,636	327,040
 Endowment net assets, end of year	 <u>\$ 4,908,985</u>	 <u>\$ 4,407,068</u>

Note 10: Donor-designated endowment:

At March 31, 2025 and 2024, the Foundation's permanently restricted endowment consisted of one donor-restricted fund established to provide scholarships. As required by Generally Accepted Accounting Principles (GAAP), net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of The Boomer Esiason Foundation has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment fund absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as with donor restrictions net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 10: Donor-designated endowment: (continued)

These donor-restricted endowment funds will remain with donor restrictions net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by the SPMIFA.

The Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Foundation and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The expected total return from income and the appreciation of investments
- (5) Other resources of the Foundation

The endowment assets are currently deposited into an interest-bearing bank account. Under the terms of the endowment, interest earnings are to be used to fund scholarships and are therefore treated as purpose restricted net assets; interest earned on this account for the years ended March 31, 2025 and 2024, was \$6,333 and \$6,497, respectively. The Foundation has yet to determine investment and spending policies for the endowment as of March 31, 2025.

Composition of and changes in endowment net assets were as follows for the years ended March 31:

	2025	2024
Endowment net assets, beginning of year	\$ 223,092	\$ 220,842
Contributions	<u>1,350</u>	<u>2,250</u>
Endowment net assets, end of year	<u><u>\$ 224,442</u></u>	<u><u>\$ 223,092</u></u>

Note 11: In-kind contributions:

In-kind contributions are reflected as contributions at the estimated fair value of the donation and are reported as unrestricted support unless explicit donor stipulations specify how donated assets must be used. The Foundation received donated prizes, food and beverages for the years ended March 31, 2025 and 2024, totaling \$164,305 and \$65,789, respectively.

The Boomer Esiason Foundation

Notes to Financial Statements

March 31, 2025 and 2024

Note 12: Functional allocation of expenses:

The costs of providing various programs and other activities have been summarized in the statements of functional expenses. Accordingly, certain costs have been allocated among program and supporting services benefited using various cost allocation techniques. Directly identifiable expenses are charged to programs and support services. Expenses related to more than one function are charged to programs and support services on the basis of personnel salary. Special events are primarily to educate and are deemed program expenses. Management and general expenses include those expenses that are not directly identifiable with any other specific function but provide for the overall support and direction of the Foundation. The overall expense allocated to programs was 72% and 66% for fiscal years 2025 and 2024, respectively.

Note 13: Subsequent events:

Subsequent events have been evaluated through September 3, 2025, which is the date the financial statements were available to be issued.
